

Fig 12.4

(2) Interchangeable Type

Code of Carriage

Series : MSC, MSD	<u>MSC</u>	<u>7</u>	<u>M</u>	<u>LL</u>	<u>FZ</u>	<u>N</u>
Size : 7, 9, 12, 15						
Carriage type : M: Standard type (Stainless) LM: Heavy load type (Stainless)						
Dust protection option of carriage : LL, RR (refer to chapter 15.1 Dust Proof)						
Preload : FZ (Clearance) FC (Light preload), F0 (Medium preload)						
Accuracy grade : N, H						
Code of special carriage : No symbol, A, B, C, D...						

Code of Rail

Series : MSC, MSD	<u>MSC</u>	<u>7</u>	<u>R</u>	<u>600</u>	<u>-7.5</u>	<u>/7.5</u>	<u>N</u>	<u>M</u>
Size : 7, 9, 12, 15								
Rail type : R (Counter bore type)								
Rail length (mm)								
Rail hole pitch from start side (E1, see Fig.12.4)								
Rail hole pitch to the end side (E2, see Fig.12.4)								
Accuracy grade : N, H								
Stainless steel								
Code of special rail : No symbol, A, B ...
